PREFACE

"Survey of Libraries" (Part I) is an annual survey of public libraries and systems throughout Canada. Information including bookstock, circulation of books, operating payments, debenture payments and staff in public libraries in centres of 10,000 population and over (as based on 1961 Census data) and in regional and provincial libraries has been obtained by a direct survey. Provincial public library agencies have supplied data on libraries in smaller centres. Summary tables concerning academic and special libraries are also included.

Enquiries, comments and suggestions regarding this report are invited and should be addressed to the Director, Education Division, or the Chief of the Adult Education Section.

WALTER E. DUFFETT,

Dominion Statistician.

PRÉFACE

Le "Relevé des bibliothèques" (Partie I) est une enquête annuelle portant sur l'ensemble des bibliothèques au Canada. Grâce à une enquête directe, on a pu recueillir des renseignements sur les stocks et les prêts de livres, les dépenses courantes, les versements sur obligations, le personnel des bibliothèques publiques des localités de 10,000 habitants et plus, — d'après les données du recensement de 1961, — les bibliothèques régionales et provinciales. Les organismes provinciaux qui s'occupent des bibliothèques publiques ont fourni les données relatives aux bibliothèques des centres moins importants. La présente publication renferme également des tableaux récapitulatifs concernant les bibliothèques scolaires et spéciales.

On voudra bien adresser toute demande de renseignements, remarque ou suggestion au directeur de la Division de l'éducation ou au chef de la Section de l'éducation des adultes.

WALTER E. DUFFETT,

Statisticien fédéral.

INTRODUCTION

Public libraries in Canada are organized under provincial legislation which specifies the method of establishment, the services to be provided and the means of support. Municipalities may organize and maintain public libraries or join together to form regional libraries according to provincial legislation. Provincial public library agencies advise local and regional libraries and distribute grants as provided.

Although the chief responsibility for public libraries falls under provincial jurisdiction, the federal government provides a variety of supplementary services. The National Library maintains the National Union Catalogue of the holdings of all major libraries in Canada. It publishes "Canadiana", a monthly bibliography of all publications that are Canadian in that they are published in Canada, written by Canadians or related to Canada. Additional services and assistance are provided by the Departments of Manpower and Immigration, Public Printing and Stationery, the National Film Board, National Art Gallery, the Post Office Department and the Dominion Bureau of Statistics.

The Canadian Library Association is a national voluntary organization of library personnel, publishers and others concerned with library development, seeking to improve standards of service in public libraries by keeping librarians informed of new developments through publications and conferences. Among its many publications are two periodicals and the Canadian Index to films and periodicals.

The *Association Canadienne des Bibliothécaires de Langue Française* with headquarters in Montreal is particularly concerned with public library service to Canadians who read chiefly in the French language.

Professional library education is carried on in five schools which offer Bachelor of Library Science and/or Master of Library Science degrees. Table 37 shows the expected number of graduates for 1967. The Université de Montréal reported no graduates this year since it has instituted a two year course.

REVIEW OF DATA

For this survey, data are reported on 910 public libraries and systems for the calendar year 1965.

Reporting public libraries showed increases over the 1964 figures in bookstock (6.4 p.c.), book circulation (2.8 p.c.) and current operating expenditure (11.1 p.c.).

Les bibliothèques publiques du Canada sont constituées sous le régime de lois provinciales qui déterminent leur mode d'établissement, les services qu'elles doivent rendre et leurs moyens de subsistance. Les municipalités peuvent organiser et soutenir des bibliothèques publiques ou unir leurs efforts en vue d'établir des bibliothèques régionales suivant les lois provinciales. Les organismes provinciaux qui s'occupent des bibliothèques publiques renseignent les bibliothèques locales et régionales et leur distribuent les subventions prévues.

Bien que les bibliothèques publiques relèvent surtout des autorités provinciales, elles jouissent de divers services additionnels que leur accorde le gouvernement fédéral. La Bibliothèque nationale veille à l'inscription dans le Catalogue collectif national des stocks de toutes les bibliothèques importantes du Canada. Elle publie la revue *Canadiana* qui est une bibliographie mensuelle de toutes les publications canadiennes, en ce sens qu'elles sont publiées au Canada, qu'elles ont des Canadiens pour auteurs ou qu'elles concernent le Canada. Des services et de l'aide supplémentaires sont fournis par le ministère de la Main-d'oeuvre et de l'Immigration, le Département des Impressions et de la Papeterie publiques, l'Office national du film, la Galerie nationale, le ministère des Postes et le Bureau fédéral de la statistique.

L'Association canadienne des bibliothèques est un organisme composé de membres bénévoles: employés des bibliothèques, éditeurs et autres personnes intéressées au progrès des bibliothèques. Elle cherche à relever les normes des services offerts par les bibliothèques publiques en tenant les bibliothécaires au courant des progrès récents au moyen de publications et de conférences. Parmi ses nombreuses publications figurent deux périodiques et l'Index des périodiques et films canadiens.

L'Association canadienne des bibliothécaires de langue française dont le siège est à Montréal s'occupe notamment des services que les bibliothèques publiques mettent à la disposition des Canadiens qui lisent surtout des livres écrits en français.

Cinq écoles professionnelles donnent des cours et confèrent un baccalauréat ou une maîtrise en bibliothéconomie. Le tableau 37 indique les effectifs prévus de la promotion de 1967. L'Université de Montréal n'a aucun diplômé cette année en raison de l'institution du cours de deux années.

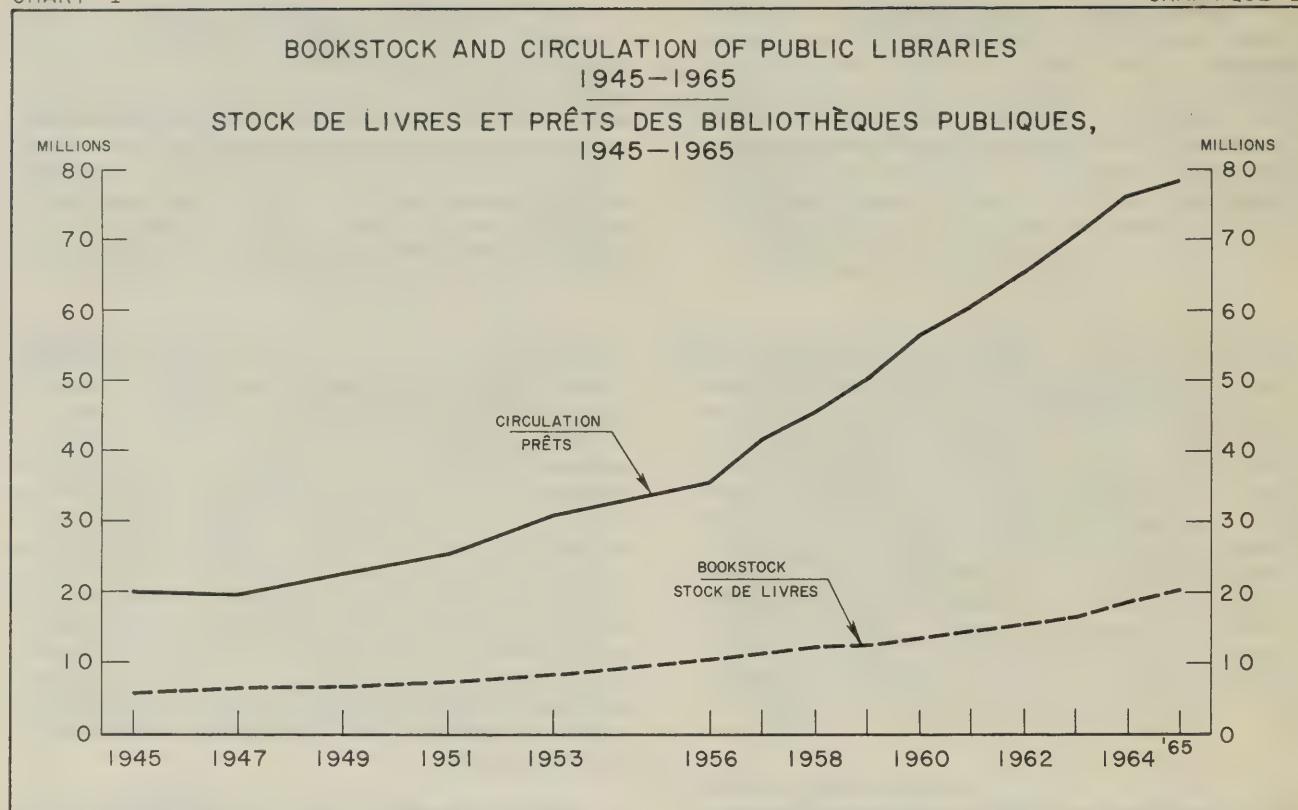

REVUE DES DONNÉES

Le présent relevé comprend les données de 910 bibliothèques publiques visant l'année 1965.

Les bibliothèques publiques qui ont fait rapport accusent des augmentations sur 1964 du côté du fonds de livres (6.4 p. 100), des prêts (2.8 p. 100) et des dépenses courantes (11.1 p. 100).

CHART-I

GRAPHIQUE-I

Technical Services

A question involving technical services designed for the purpose of measuring work loads and costs of processing, indicated that in 167 reporting libraries, 151 professional and 839 non-professional staff were involved in this area of library work.

The number of new titles catalogued and other titles recatalogued averaged 5929 per professional librarian or 904 per staff member.

Finance

Current operating payments increased 11.1 p.c. over 1964 and averaged \$1.54 per capita.

Table 31, showing data on provincial governments expenditure on public library services and education contains some estimates and some revised figures for 1964 and 1965. The expenditure figures on public libraries (1964 and 1965) were taken mainly from provincial Public Accounts and the total gross general expenditure (exclusive of debt retirement) figures were provided by the Governments and Transportation Division of DBS.

Services techniques

Une question touchant les services techniques conçus en vue de mesurer la somme de travail et les frais de traitement des ouvrages a démontré que dans 167 bibliothèques répondantes, 151 employés professionnels et 839 employés non professionnels étaient engagés dans ce genre de travail.

Le nombre de nouveaux titres catalogués et d'autres titres recatalogués s'établit, en moyenne, à 5,929 par bibliothécaire professionnel ou à 904 par employé.

Finances

Les dépenses courantes se sont accrues de 11.1 p. 100 sur 1964 et se sont établies, en moyenne, à \$1.54 par personne.

Le tableau 31 donne le chiffre des dépenses effectuées par les gouvernements provinciaux pour les services de bibliothèques publiques et pour l'enseignement et renferme des estimations et des chiffres revisés pour 1964 et 1965. Le chiffre des dépenses affectées aux bibliothèques publiques (1964 et 1965) a été tiré principalement des comptes publics des provinces et le total brut des dépenses générales (sauf l'amortissement de la dette) a été fourni par les gouvernements provinciaux et la Division des transports du B.F.S.

Provincial expenditure on public libraries amounted to \$5,938,000 or about 0.1 p.c. of the total gross expenditure. About 11 p.c. more was spent on public libraries this year.

Staff

Total full-time staff reported for 1965 showed an 8.1 p.c. increase. Nearly 86.2 p.c. of this total were employed in libraries in centres of 10,000 population and over (based on 1961 Census data).

Median salaries for full-time professional librarians in all public libraries averaged \$6,744 per year compared with \$6,317 in 1964 and \$6,121 in 1963.

Academic Libraries

Table 38 described academic libraries in universities and colleges with enrolments of 100 or more, technical institutes, teachers' colleges, trade schools and elementary and secondary schools with centralized libraries. These libraries are described in more detail in the publication "Survey of Libraries, Part II: Academic Libraries, 1964-65".

Special Libraries

Table 39 contains data concerning special libraries (government, business and technical libraries). This table has been compiled from the second edition of "Directory of Special Libraries and Information Centers" by Antony T. Kruzas (Detroit: Gale Research Company, 1963).

Les dépenses des provinces pour les bibliothèques publiques se sont élevées à \$5,938,000 ou environ 1 p. 100 du total brut des dépenses. Près de 11 p. 100 de plus ont été alloués aux bibliothèques publiques cette année.

Personnel

La statistique de 1965 fixe à 8.1 p. 100 l'augmentation du personnel à plein temps. Sur la totalité des effectifs, 86.2 p. 100 travaillaient dans des bibliothèques situées dans des localités de 10,000 habitants et plus (d'après le recensement de 1961).

Le traitement médian des bibliothécaires professionnels à plein temps des bibliothèques publiques s'établit en moyenne à \$6,744 par année, au regard de \$6,317 en 1964 et de \$6,121 en 1963.

Bibliothèques scolaires

Le tableau 38 porte sur les bibliothèques publiques des universités et collèges dont les inscriptions se chiffrent par 100 ou plus, des instituts techniques, des écoles normales, des écoles d'arts et métiers et des écoles primaires et secondaires pourvus de bibliothèques centralisées. On trouvera de plus amples renseignements sur ces bibliothèques dans la publication "Relevé des bibliothèques, Partie II: Bibliothèques scolaires, 1964-65".

Bibliothèques spéciales

Le tableau 39 présente des données sur les bibliothèques spéciales (gouvernementales, commerciales et techniques), d'après la seconde édition du *Directory of Special Libraries and Information Centers*, par Antony T. Kruzas (Detroit: Gale Research Company, 1963).
